- Maintain at all times an open and helpful relationship with HMRC; and
- Operate, both within the Group, and in our wider relationship with the J. Safra Sarasin Group, such that profits fall correctly in entities and at amounts driven by relationships based on arm's length terms.

In accordance with the Schedule, this Strategy provides information in relation to the following: -

Management of UK Tax Risk

- Ultimate responsibility for the Tax Strategy rests with the Board. The Board considers the tax aspects of all major financial decisions prior to granting approval and takes responsibility for the overall risk assessment relative to the Group's risk appetite. In particular, the Chief Executive Officer and the Executive Committee have the duty to assess the suitability and sustainability of all decision-making involving tax matters.
- The Group has three locations, the principal location being in London, with smaller offices located in Dublin and New York. The Group has a single business line, being the provision of investment management services. The level of tax complexity of the business operation remains at a stable level and the Board considers that the level of resource and expertise in place remains adequate to manage tax change as it occurs.
- Day to day responsibility for the implementation of the Tax Strategy, tax policies and management of tax risk rests with the Chief Financial Officer. The Finance team, under the Head of Finance, manages the different areas of tax (including Income Tax, Corporation Tax, Capital Gains Tax, Pay As You Earn, National Insurance and VAT) and are responsible for regular consultation with specialist external tax advisors. The Company Secretary together with the Head of Finance is responsible for Stamp Duty on equity transfers.
- The control environment is supplemented by periodic review undertaken by Internal Audit, and third party assurance provided by the external auditor as part of the annual audit of the Group report and accounts.

- Processes including potential risk identification and the evaluation of appropriate safeguards are monitored on an ongoing basis in respect of the Corporate Criminal Offence of failing to prevent the facilitation of tax evasion.

Our Attitude to Tax Planning

- The Board is responsible for ensuring that detailed consideration is given to the tax implications of any major new initiative. The Board ensures that the sustainability of any project is stress tested to include taxation considerations before approval is granted.
- The Chief Financial Officer together with the Head of Finance and our professional advisors keep up to date with the changing tax legislation and requirements, especially where these may have a fundamental effect on the sustainability of an operation. This ensures that we are well positioned to enact any changes that result.
- We will not undertake transactions whose purpose is to create an abusive tax result or which are outside of the Group's risk appetite or are not in line with our Core Values. The planning process will examine the tax effects of a number of approaches to ensure a sustainable and appropriate taxation result. We will consult professional advisors for confirmation of approach, or to clarify any areas of doubt, if required. If necessary we will ask for guidance and/or pre-approval (where possible) from HMRC.

Level of Tax Risk

- Risks may arise from time to time in relation to complex tax law. We actively seek to identify, evaluate, monitor and manage these risks to ensure that they remain low and in line with our objectives. Where there is uncertainty or complexity in relation to a risk, external advice will be sought.
- It is our aim to run the Group with as low a tax risk as possible. We appreciate the damage that could be inflicted upon our reputation as a safe and suitable place for our clients' investments were the level of tax risk to lead to a significant liability.
- Our reputation is of the utmost importance to our business credibility and we seek to protect it wherever possible. Our stakeholders expect us to maintain a low tax risk.

Working with HMRC

- We engage with HMRC with honesty and integrity. Our aim is to meet all legal requirements and make all appropriate returns and payments, in a timely and accurate manner.
- Where there is doubt or a need for clarification we will engage with HMRC in an open and transparent way and where possible seek pre-approval. Where such pre-approval is not available we will seek written opinion from our professional advisors.
